SYSTEM DEMO

FinTechathon 2026 — Topic E

SME Finance Copilot

An enterprise-grade AI system that doesn't just match companies to products. It understands them.

- Task Completion
- Innovation
- Security

INTERNATIONAL TRACK

THE REALITY

Three systemic failures in SME financing.

€400B

Annual EU SME financing gap.

45%

Rejections due to incomplete compliance.

73%

Of financial rejections are preventable.

ARCHITECTURE

A four-engine AI pipeline.

Privacy Gate

Zero PII leakage via presidio NLP masking.

Regulatory Engine

Real-time Registry and AML watchlists.

Monte Carlo Testing

5,000 cash-flow trajectory simulations.

XAI Recommendations

Transparent multi-agent RAG product matching.

TIER-1 SECURITY GATE

50ms PII Detection.

```
// Input Payload

"CEO John Smith, email john@company.com, IBAN
ES91210004..."

// Output Payload (Masked)

"CEO , email , IBAN ..."
```

Downstream engines never process raw personal data.

Engineered Constraints

- GDPR Art. 25 — Data Protection
- ISO 27001 A.18 — Legal Compliance
- PCI DSS v4 — Card Data Protection
- 6AMLD — Anti-Money Laundering
- EU AI Act Art. 13 — AI Transparency
- LSC Art. 279 — Annual Accounts

EXPLAINABLE MATCH

Multi-agent semantic RAG pipeline.

GRANT PROGRAMME

ICO Green Transition Loan

1.8%
Base Rate

Relevance Score 87%

EU_AI_ACT_ART_13_TRACE:

High semantic overlap with 'green energy transition' intent. LSC standing verified.

PROBABILISTIC SIMULATION

5,000 cash-flow trajectories.

Liquidity Rating

A+

Horizon	Scenario	Mean Balance	VaR95	P(Ruin)
30d	Baseline	€272,400	€245,100	0.2%
30d	Moderate Stress	€238,700	€194,300	1.8%
30d	Severe Stress	€186,200	€112,800	8.4%
90d	Baseline	€342,100	€296,400	0.5%
90d	Severe Stress	€98,400	-€34,200	23.1%

Self-Contained Web Dashboard

Six live modules. Zero additional infrastructure required.

ARCHITECTURE STANDARDS

Competition-grade engineering.

Strict Validation

High-throughput async FastAPI & Pydantic v2.

100% Coverage

38 test suite with automated execution logs.

Graceful Degradation

Automated fallbacks for NLP and embedding models.

Scale and speed.

23M
European SMEs

< 3s
Processing per entity

70%
Analyst time reduced

FOR BANKS
Zero compliance fines. Higher approval rates.

FOR REGULATORS
Complete immutable audit trails.

The financial infrastructure European SMEs deserve.

Production-ready and built to competition standards.

System Status:	LIVE ✅
All Engines:	OPERATIONAL ✅
Compliance Frameworks:	8 ✅
API Endpoints:	9 ✅

THE TEAM

Domain expertise across AI and Regulation.

Jokin Izaguirre Perez

AI Engineering Student
University of the Basque Country (EHU)

Lead architect for the multi-agent RAG system and Monte Carlo risk simulations.

/in/jokin-izaguirre-perez

github.com/jookiniza/

Alejandro Fernández Rosado

Law & Politics with Economics Student
University of Valencia (UV)

Domain expert ensuring GDPR, Basel III, and Mercantile Registry compliance.
